### Hosting with Cambria: The Lowdown

Because Cambria is a small company, we do not offer round-the-clock customer support found at some larger hosting companies. So, a late-night crash of our web server might mean that your site will be down through the night. Of course, we would fix any problems first thing the next morning.

That said, Cambria's servers are highly stable, and our prices often are lower than those of major hosting companies.

### Statistics Analysis

If desired, Cambria will set up your account to use WebTrends Log Analyzer at no extra cost. WebTrends provides detailed reports about visitor demographics, referring web sites, and visitor patterns. For more information, please visit <http://www.netiq.com/solutions/analytics/default.asp>.
